1. INTRODUCTION

1.1 Purpose of this Manual

This document serves as the official user manual for the Konstructo Building Permit Application Management System. Its purpose is to provide comprehensive, step-by-step guidance for all staff members and administrators who interact with the system. By following this manual, users will be able to perform their duties efficiently, understand system workflows, and utilize all features according to their assigned roles.

1.2 System Overview

Konstructo is a web-based platform designed to digitize and streamline the building permit application process. The system facilitates the entire lifecycle of a permit application—from initial registration and document submission to verification, assessment, approval, and final release. Key capabilities include:

- **Online Application Submission:** Citizens can register, complete application forms, upload required documents via Google Drive links, and submit permits for review.
- **Role-Based Workflows:** Staff members have permissions tailored to their specific positions (e.g., Engineer, CPDO, Assessor, Treasurer, BFP), ensuring secure and efficient task management.
- **Document Verification:** A structured two-step verification process for ownership documents (Step 1) and project documents (Step 2).
- **Assessment & Payment Tracking:** Tools for engineers and treasurers to calculate fees, issue payment orders, and track receipts.
- **Real-Time Dashboard:** Provides analytics on application statuses, staff performance, citizen satisfaction, and key metrics with auto-refresh capabilities.
- **Reporting & Export:** Comprehensive reporting tools to export data in Excel, PDF, or CSV formats for audit and record-keeping.

1.3 Who Should Use This Manual

This manual is intended for all Konstructo system users, including:

1. **System Administrators:** Responsible for user management, system configuration, and overall system oversight.
2. **Processing Staff (Engineers, Architects, CPDO, Assessor, Treasurer, BFP):** Staff who review, verify, assess, and make decisions on permit applications.
3. **Monitoring Staff:** Users who require read-only access to track application statuses.
4. **Management (Mayor's Office):** Personnel who need to view application data and CPDO ratings for oversight purposes.
5. **Users** are encouraged to focus on the sections relevant to their specific role, though reading the entire manual is recommended for a complete understanding of the system.

2. GETTING STARTED

2.1 Welcome & Your Role

Welcome to Konstructo, the Building Permit Application Management System. This guide will help you navigate the system and perform your daily tasks efficiently.

Your access and permissions within the system are determined by your assigned role:

Role	Primary Responsibilities
Administrator	Full system access, user management, system configuration.
Engineer	Review applications, update status, verify documents, conduct assessments, make approval decisions.
Architect	Review and verify architectural plans, update status, and documents.
CPDO Staff	Verify ownership documents, approve applications, upload certificates.
Assessor	Verify Tax Declaration documents.
Treasurer	Verify Current Tax Receipts and manage payment orders.
BFP Staff	Upload FSEC documents and add fire safety comments.
Mayor's Office Staff	View applications and their statuses, view survey ratings, view staff performances, and view reports.
Monitoring Staff	Monitors the application status and can change the application status.
Administrative Aide	Basic view access to applications.

2.2 Main Features & Quick Tips

- Main Features: Access applications, dashboard analytics, payment tracking, client satisfaction surveys, and comprehensive reporting tools.

- Quick Tips:
 - Use search filters to find applications quickly.
 - The system auto-refreshes every 60 seconds.

2.3 The 5-Step Application Process

The application process for citizens is divided into five sequential steps:

Step	Title	Description & Key Actions
1	Ownership Verification	Provide Google Drive links for proof of ownership: TCT/Deed of Sale, Tax Declaration, Current Tax Receipt, and Special Power of Attorney (if applicable). Verified by CPDO, Assessor, and Treasurer.
2	Project Information	Enter detailed project info: title, location, lot/floor area, number of floors, estimated cost, and owner/professional information.
3	Download Forms	Download required building permit forms (e.g., Zoning Compliance, Architectural/Structural/Electrical/Plumbing Permits). Forms can be downloaded only once.
4	Upload Documents	Upload filled forms and documents (e.g., Application Letter, Plans, Bill of Materials, Valid ID) to Google Drive and provide shareable links.
5	Review & Submit	Review all information, agree to legal declarations, and submit. An application number is generated. Note: Original hard copies must be submitted to the Office of the Building Official (OBO).

2.4 The Two-Step Verification Process

After submission, applications undergo a structured verification process:

- Step 1: Ownership Documents
 - CPDO verifies TCT/Deed of Sale.

- Assessor verifies Tax Declaration.
- Treasurer verifies Current Tax Receipt.
- CPDO/Assessor/Treasurer verifies Special Power of Attorney (SPA).
- Step 2: Project Documents
 - CPDO approval is required before this step begins.
 - Engineers & Architects can verify documents. Other roles have view-only access.

2.5 Account Registration & Login

Account Registration Process:

1. Register Account: Fill out personal information and create account credentials.
2. Verify Email: Enter the 6-digit code sent to your email address.
3. Admin Approval: Wait for an administrator to approve your account (1-2 business days).
4. Login & Apply: Use your credentials to log in and start applications.

Logging In:

1. Use your Email or Username and Password.
2. Check "Remember me" for convenience on personal devices.
3. Use the "Forgot Password" link to reset your credentials via email.

3. ACCOUNT REGISTRATION

3.1 Registration Process Flow

3.2 Step-by-Step Registration Guide

The registration form is completed in three substeps:

- Step A: Personal Information
 - Required: First Name, Last Name, Phone Number (must start with 09, 11 digits), Zip Code, Address.
 - Optional: Middle Name, Suffix (Jr., Sr., II, etc.).
 - Tip: Enter your legal name as it appears on government IDs.
- Step B: Account Details
 - Required: Valid Email Address, Username (letters, numbers, _, - only), Password, Confirm Password.
 - Password Requirements: 8-16 characters, including 1 uppercase letter (A-Z), 1 number (0-9), and 1 special character (@\$!%*?&).
- Step C: Review & Submit
 - Verify all information.
 - Accept the Terms of Service & Privacy Policy.

- Click "Create Account" to submit.

A screenshot of a 'Sign Up' form for 'Konstructo'. The form is titled 'Sign Up' with the subtitle 'Create your account to get started with Konstructo'. It features a progress bar with three steps: 1. Personal Info (active), 2. Account Details, and 3. Review & Submit. The 'Personal Information' section includes fields for First Name, Last Name, Middle Name, Suffix (a dropdown menu), Phone Number (with a country code dropdown and a format note: 'Format: 9123456789 (must start with 09 and be 11 digits)'), Zip Code, and Address. A 'Next >' button is at the bottom right. At the very bottom, there is a link: 'Already have an account? Log in here'.

Figure 3.2.1: Sign Up Form – User completes the registration form with personal and account details.

3.3 Email Verification

After submitting the registration form, a 6-digit verification code will be sent to your email.

- To verify, enter this code in the modal that appears and click "Verify Email".
- If you did not receive the code, check your spam/junk folder or click "Resend Code".

A screenshot of a 'Verify Your Email' modal. It features an envelope icon at the top. The title is 'Verify Your Email'. Below the title, it says 'We've sent a 6-digit verification code to' followed by the email address 'jethromanzanillo@gmail.com'. Below that, it says 'Enter the 6-digit code' above six empty input boxes. A blue 'Verify Email' button is at the bottom. At the very bottom, it says 'Didn't receive the code? Resend Code' with a link.

Figure 2: Verify Email – User receives and enters the 6-digit verification code sent to their email address.

3.4 Admin Approval & Account Status

After email verification, your account will be marked as "Pending Approval".

- An administrator will review your registration (typically within 1-2 business days).
- You will receive an email notification once your account is approved.

Status Messages:

- Pending Approval (Yellow): Account waiting for admin review.
- Approved (Green): Account is ready to use.
- Rejected (Red): Registration was denied; a reason will be provided.

Figure 3.4.1: Pending Approval – After email verification, the account awaits administrator review.

3.5 Logging In

Once your account is approved, you can log in from the main login page.

Figure 3.5.1: Account Approved – User receives confirmation and can now log in to the system.

4. DASHBOARD GUIDE

The dashboard provides real-time insights into system performance and key metrics. It auto-refreshes every 60 seconds.

4.1 Header & Controls

- **Date Picker:** Select Daily, Monthly, or Yearly views to filter dashboard data.
- **Export Report:** Click to export the current dashboard metrics and charts.
- **Position Badge:** Displays your assigned role (e.g., Engineer, CPDO).

Figure 4.1.1: Dashboard header showing date picker, export button, and position badge

4.2 Key Statistics Cards

Four main metric cards display system performance:

- Total Applications: Total number of applications filed.
- Pending Review: Applications awaiting initial action.
- Completed: Applications fully processed.
- For Release: Approved permits ready for pick-up.

Figure 4.2.1: Statistics cards showing total applications, pending review, completed, and for release metrics

4.3 Trend Charts & Analytics

Visual charts display application trends over time. Use the selector to switch between "This Month", "Last Month", and "This Year" views.

Figure 4.3.1: Trend charts showing application volume and performance over time

4.4 Application Status Distribution

A donut chart shows the percentage breakdown of applications by status (e.g., Pending, Under Review, Approved).

Figure 4.4.1: Donut chart showing application status breakdown with percentage distribution

4.5 Recent Activities Feed

A timeline showing the latest actions across the system in real-time, including document verifications, status changes, and remarks.

Figure 4.5.1: Recent activities timeline showing document verifications and status changes

4.6 Citizen Satisfaction Dashboard

View client feedback metrics including overall satisfaction rating, response rate, and service quality dimensions.

Figure 4.6.1: Citizen satisfaction dashboard showing rating, star breakdown, and survey response metrics

4.7 Staff Performance & Verification Queue

- Staff Performance: Tracks staff productivity (e.g., number of applications processed per week).
- Verification Queue: Displays counts for Pending Verification, Under Review, and Ready for Release.

Figure 4.7.1: Staff performance metrics and document verification queue status

5. APPLICATIONS MANAGEMENT

5.1 Accessing Applications

From the left sidebar, locate and click the Applications menu item.

The Applications list page will display all applications with pagination controls (10/25/50/100 per page).

Figure 5.1.1: Left sidebar navigation with Applications menu highlighted

5.2 Searching & Filtering

Use the tools above the application table to find specific records:

- Search Box: Search by Application Number or Applicant Name.
- Status Filter: Filter by Pending Review, Under Review, Approved, Rejected, etc.
- Aging Filter: Filter by how long applications have been pending:
 - Green - New (0-2 days)
 - Yellow - Warning (3-5 days)
 - Orange - Critical (6-10 days)
 - Red - Overdue (10+ days) with a pulsing effect.

2610000005	MS Maria Santos maria.santos@email.com	May 2, 2026 8 days ago	Critical (8 days) Under Review	May 6, 2026, 02:27 PM	

Figure 5.2.1: Search bar, status filter, aging filter, and filter buttons with aging legend

5.3 Viewing Application Details

Click on any application row to view its complete details. The details page is organized into several sections:

- Project Information
- Owner/Applicant Information
- Professional Information
- Step 1: Ownership Documents
- Step 2: Project Documents
- Activity Log
- Status Update Card (role-based actions)
- Assessment Cards (Building Permit Fee and CPDO Fee)

5.4 Viewing Full Activity History

Within the "Activity Log" card, click the "View Full History →" button to see a complete, filterable timeline of all actions, timestamps, and remarks for an application.

Figure 5.4.1: Full activity history page with filtering options and pagination

5.5 Application Status Reference

Status	Description
Pending Review	Application submitted, awaiting initial staff review.
Under Review	Under Review Staff is actively reviewing documents and verification.
For Assessment	Documents verified, awaiting fee assessment from engineer.
Approved	Application has been approved. Hard copy submission date and instructions have been set. Awaiting physical document submission before proceeding to "For Release."
For Release	Hard copies received and building permit number issued. The permit is ready for pickup by the applicant.
Completed	Permit has been released to the applicant. The process is complete. The system will automatically archive the application.
Rejected	Application rejected. The applicant must resubmit with required corrections or resubmit the applications.

Welcome, Jethro!

6. STAFF TASKS & WORKFLOWS

6.1 Verify Ownership Documents (Step 1)

Role-Based Permissions:

- CPDO: Can verify TCT/Deed of Sale and SPA.
- Assessor: Can verify Tax Declaration.
- Treasurer: Can verify Current Tax Receipt and SPA.
- To Verify:
 1. Open the application.
 2. Scroll to the "Step 1: Ownership Documents" section.
 3. Review the documents you have permission to verify.
 4. Click the checkbox next to the document to mark it as verified.
 5. To request clarification, click the Remark button and enter comments. The applicant will be notified.

Figure 6.1.1: Step 1 ownership documents section with verification checkboxes and remark buttons

6.2 Project Document Verification (Step 2)

Note: CPDO must approve the application before Step 2 verification can begin.

- Permissions: Only Engineers & Architects can verify project documents. Other roles have view-only access.
- To Verify:
 1. Scroll to the "Step 2: Project Documents" section.
 2. Click the "View" button to open a document.
 3. Click the "Verify" button for accepted documents.
 4. To request missing documents, click "Request Missing Documents", select the needed files, and add instructions. The applicant will be notified.

Figure 6.2.1: Step 2 project documents section with view, verify, and request missing documents buttons

6.3 Hard Copy Receiving

Permissions: Only Engineers and Architects can perform this task.

To Mark as Received:

- Open the application details.
- In the "Status Update" card, check the "Hard Copy Received" checkbox.

6.5 BFP Fire Safety Assessment (BFP Staff Only)

1. Open the application and navigate to the "Fire Safety Evaluation Clearance (FSEC)" section.
2. Click "Upload FSEC" to upload the certificate (formats: PDF, JPG, PNG; max 10MB).
3. Add BFP Comments / Recommendations.
4. Click "Save Comments" to save your assessment.

Figure 6.5.1: BFP section with FSEC upload and comments field

6.6 CPDO Assessment & Decision (CPDO Staff Only)

Responsibilities:

1. Verify TCT/Deed of Sale and SPA (Step 1).
2. Upload Zoning Certificate and Locational Clearance (Google Drive links).
3. Create Fee Assessment: Set Assessment Date, enter various fees (Zonal Location, PALC, etc.), add notes, and save.
4. Make Final Decision: Select "Approve" or "Reject". Add remarks (required for rejection).

CRITICAL: The CPDO decision is FINAL and cannot be changed.

The screenshot displays the CPDO system interface for Jethro, a Sanitary Engineer. The main section is titled 'Step 1: Ownership Documents'. It lists three documents for verification: 'TCT / Deed of Sale' (CPDO only, Verified), 'Tax Declaration' (Assessor only), and 'Current Tax Receipt' (Treasurer only). Each document has a 'Remark' button and a 'Verify' button. The 'TCT / Deed of Sale' document is highlighted with a green box. Below this, there is a section for 'Step 2: Project Documents' with 'Application Forms' and 'Building Permit Forms'. On the right side, there is a status selection menu with options: 'Under Review', 'Document Verification', 'For Assessment' (Restricted), 'Approved' (Restricted), 'Rejected' (Restricted), 'For Release' (Restricted), and 'Completed' (Restricted). A yellow box notes that only engineers can change status to 'Assessment, Approved, Rejected, For Release, and Completed'. At the bottom right, there is a 'Remarks / Notes' field and an 'Update Status' button.

6.7 Engineer Assessment & Status Updates (Engineers Only)

- Create Building Permit Fee Assessment: Enter fees (Line Grade, Building Fee, Sanitary, etc.) and click "Save Assessment & Mark as For Assessment".
- Update Application Status: Engineers can change statuses to For Assessment, Approved, Rejected, For Release, and Completed.
 - When marking Approved, set a hard copy submission date and instructions.
 - When marking For Release, enter a 10-digit Building Permit number.

The screenshot shows a web application interface for an Electrical Engineer named Jethro. A modal titled "Building Permit Fee Assessment" is open, allowing the user to input various fees. The background shows the "Professional Information" section with names of other engineers and a list of documents for "Step 1: Ownership Documents".

6.8 Survey & Feedback Review

1. Go to "Surveys" from the sidebar.
2. View the two tabs: Satisfaction Surveys (all staff) and CPDO Experience Ratings (CPDO/Mayor only).
3. Review statistics cards and charts.
4. Use filters to refine results.
5. Export data as CSV or PDF.
6. All lists of Individual survey responses.

Figure 6.8.1: Survey section statistics cards, charts, and export reports.

Figure 6.8.1: Surveys section with statistics cards and charts

6.9 Archive Applications

Automatic Archiving:

Once an application reaches the "Completed" status, the system will automatically archive it. No manual action is required from staff members for completed applications.

Manual Archiving (For Other Statuses):

In certain circumstances, staff may need to manually archive an application that is not yet completed (e.g., duplicate submissions, test entries, or abandoned applications).

Important Rules for Manual Archiving:

1. The "Archive Application" button is available for applications that are not yet marked as "Completed."
2. A valid reason for archiving is required. The system will not allow archiving without a justifiable explanation.
3. The reason must clearly state why the application is being archived (e.g., "Duplicate submission from applicant," "Test application only," "Applicant requested withdrawal").

To Manually Archive an Application:

1. Open the application from the Applications list.
2. Click the "Archive Application" button (yellow button) located in the top right corner.
3. In the confirmation modal, enter a detailed and valid reason for archiving the application.
4. Click Confirm to complete the action.

Restoring Archived Applications:

- Archived applications can be viewed in the "Archived Applications" section in the sidebar.
- To restore an application, select it from the list and click "Restore Selected" or use the individual restore option. Restored applications will return to their previous status.

7. ADMIN TASKS & ADMINISTRATION

Note: These features are only available to users with the Administrator role.

7.1 User Management

Adding a New User:

1. Go to "User Management" from the admin sidebar.
2. Click "New User".
3. Fill in user details (name, email, phone, username).
4. Assign a Role (Admin or Staff).
5. If "Staff" is selected, assign a specific Position (Engineer, CPDO, etc.).
6. Generate a temporary password (user will be prompted to reset on first login).
7. Send the credentials to the user securely.

The screenshot displays the 'User Management' interface. At the top, a dark blue header contains the 'Welcome, Admin!' message, the user's role 'Admin', and the current time '09:50:00 AM' on 'May 12, 2026'. Below the header, the 'User Management' section is titled 'Manage system users, roles, and permissions'. It features a sidebar on the left with a 'New User' button (labeled '2') and a 'Users' button (labeled '1'). The main content area shows a summary of user counts: 'Total Users: 23', 'Admins: 1', 'Staff: 13', 'Applicants: 9', and 'Active: 21'. Below this is a search bar and filters for 'All Roles' and 'All Status'. A table lists the users, with columns for 'USER', 'EMAIL', 'ROLE', 'POSITION', 'SPECIALIZATION', 'STATUS', 'LAST ACTIVE', and 'ACTIONS'. The table contains two entries for 'Jethro Jayson Manzanillo', one with status 'approved' and one with status 'pending'.

USER	EMAIL	ROLE	POSITION	SPECIALIZATION	STATUS	LAST ACTIVE	ACTIONS
Jethro Jayson Manzanillo ID: USR-0032	jethromanzanillo@gmail.com	Applicant	—	—	approved	1 day ago	[Edit] [Copy] [Refresh] [Delete]
Jeth Jayson Manzanillo ID: USR-0033	jij2022-6024-83583@bicol-u.edu.com	Applicant	—	—	pending	1 week ago	[Edit] [Copy] [Refresh] [Delete]

7.2 System Settings Configuration

The System Settings page is organized into four tabs for efficient system management.

General Settings

- Configure core system preferences including:
- System Information (application name, version, status)
- Email Settings (sender details, notification toggles)
- Application Settings (title, description, feature toggles)
- Maintenance Mode (system access control)

System Logs

- View and export user activity logs with:
- Search and filter by action type, date range, or user
- Sortable columns (Name, Username, Action, IP Address, Date/Time, Status)
- Export as Excel or PDF for auditing
- Pagination for easy navigation

Application Review Logs

- Track application review activities including:
- Reviewer details and application numbers
- Action types (Document Verified/Rejected, Status Updated)
- Status change history with visual indicators
- Remarks and timestamps

User Approval

- Manage applicant access with:
- Search and status filtering (Pending/Approved/Rejected)
- Quick approve/reject actions with optional rejection reasons
- Email verification status display
- Real-time status badges

- Survey Analytics (satisfaction trends)
- Staff Performance (individual productivity)

7.4 Export Data

Data can be exported from several sections of the system. Look for an "Export" dropdown or button in the following areas:

- Dashboard: "Export Report" button.
- Applications / Archived Applications / Payment Assessments: "Export" dropdown or "Export Report" button.
- Surveys: Export dropdown (CSV or PDF).
- System Settings (Logs): Export dropdown (Excel or PDF).
